

Manufactured by Oluce | Designed by Victor Vasilev

Superluna is a powerhouse of multi-directional light in a minimalist format with bold design impact. A strong, thin rod forms an axis for two hemispherical lighting heads that can each be manipulated to shine in any direction around that axis. The resulting moods and practicality that can be born out of this innovative light enhance your ability to create your space exactly as you wish.

FINISHES & MATERIALS

- Floor lamp giving indirect and reflected light with two rotating metal hemispheres.
- Matt black stem.
- Equipped with led.
